1	It was related to one of our main concerns and work and it was very interesting to bring our voices and stories and also to exchange experiences with other organizations. It would be great to have this opportunity again and to network more with other NGOs working in the same field.	11/2/2020 11:24 AM
2	very relevant according to the Global Gender Gap report indicating that this is the topic where gender inequalities are the highest and persistent; confirmed by local/national realities of many SDC's priority countries	10/30/2020 5:13 PM

5	We are not working on women's "Political" leadership however, the presentations and discussions can be translated to empowerment and leadership at other levels.	10/20/2020 9:44 AM
6	The topic is relevant for us. However, not only political leadership, but also effective participation in different areas (political, but also social, economic, cultural) is relevant in our Projects. Moreover, the issue of political leadership should be/is closely related to transformative change in general (how do we change the system to be supportive of human/women needs and women participation, not only how to support women to take leadership in the existing political system).	10/20/2020 9:33 AM
7	It matches very well even with SDG and Global Reports on How to advance the gender work?	10/14/2020 9:59 AM

4	We need to bring more males in the discussion - there was only one male participant, isnt it?	10/27/2020 11:58 AM
5	The gender learning day should be kept as a virtual meeting and be joined by colleauges in the field too.	10/27/2020 11:56 AM
6	The networking / informal exchange was missing (since the exchange was not face to face), if the Gender Day will be online also in future it would be interesting to use additional methods/spaces that facilitate this informal exchange among SDC and partners.	10/20/2020 9:39 AM
7	The input from the IZFG was extremely valuable. It is very important to have such inputs besides the exchange among participants in these Learning Days	10/14/2020 12:14 PM
