Gender in Annual Reports

Gender in Annual Reports

- **Consistent reflection throughout** the report; integrate reflections on multiple discrimination
- In **Context** analysis (gender in the MERV) and implications
- In Achieved **Results**
- Report on quantitative **data** to observe progress (comparing over time) and **qualitative analysis**
- In the chapters **implications for steering** - at the level of domains and the level of the country programme
- Refer to gender relevant comments in the **management response** of the previous year and report on follow up
- **Structure:** Separate Gender Annex versus mainstreaming in the report ?

Gender Status Reports

A tool for reporting at the institutional level. It includes

- Chapter on global context trends
- The results of activities as per the annual programme of the gender unit & network
- SDC's overall results in the three main thematic priority areas
 - Including also more specific thematic global trends
 - And illustrating results with selected project examples.
Provide good overview on how we work and contribute to advance gender equality, and what challenges we face

Plans for the future: including a section on other topics (of crosscutting nature or other thematic areas). See e.g. in 2020: A chapter on Policy influencing and multi-discrimination

Key findings/conclusions 2020
