Questions to debate with the group

- According to your experiences, what approach should be preferred to initiate the implementation of UHC system:
 - 3 Tiers in parallel, or one after the other?
 - National rollout or phased rollout?
 - First bring health facilities up to standards?
- Any feedback or lessons learned about the transition from out-of-pocket payment to UHC scheme?
 - Pushback from beneficiaries?
 - Perception of the role of the government?
- How to engage other donors (e.g. WB) to ensure coherence between different visions and approaches?
- How to best mobilize financing for UHC scheme, both internally and externally?
