

SDC Health Network

Regional F2F-Meeting 2023

Health beyond 2024:

Fostering a SDC-wide approach on cross-sectorial interventions

WELCOME

Day 1 / 28 August 2023

WRAP UP

OBJECTIVES OF DAY 1

Topic	Health determinants & cross-sectorial interventions
Rationale	The value of cross-sectorial interventions to achieve the SDGs is widely recognized. Interventions that tackle non-health sectors have important co-benefits for population health. With the Health determinants in mind, the SDC encourages engaging on sectors that influences health status such as climate change (air pollution), nutrition and healthy diets, WASH (hygiene and sanitation), education and social inclusion.
Objectives	<ul style="list-style-type: none">• Health network members gain a joint understanding on how to identify cross-sectorial interventions with health outcomes according to their own context and local challenges;• Explore alternative health cooperation architecture.
