Record rainstorm causes 'life threatening' flooding, road closures in southern Maine

Flood waters had receded in Portland by Thursday morning after more than 6 inches of rain fell Wednesday night.

A person wearing a bright green jacket is walking away from the camera through the interior of a boat. The boat's interior is cluttered with various items, including a yellow and blue inflatable kayak hanging from the ceiling, a green tarp, and a large white plastic bag. The scene is dimly lit, with some light coming from the right side. Overlaid on the image are several text labels in white, bold font, arranged in a roughly circular pattern around the person. The labels include: 'Climate change affects everybody...', '(Mal)Adaptation', 'Extreme weather event', 'Hazard', 'Vulnerability', 'Risk', 'Limits to adaptation', 'Impacts', 'Sea level rise', 'Resilience', and 'Climate variability'.

Climate change affects everybody...

(Mal)Adaptation

Extreme weather event

Hazard

Vulnerability

Risk

Limits to adaptation

Impacts

Sea level rise

Resilience

Climate variability

A woman stands in a rural, arid landscape. She is wearing a yellow jacket over a patterned top and a blue patterned skirt. She has a headwrap. In the background, there is a traditional thatched-roof hut. The ground is dry and dusty, with some sparse vegetation.

Those with less assets more severely...

‘Risks are unevenly distributed and are generally greater for disadvantaged people and communities in countries at all levels of development’

Workshop objectives

to make the participants more familiar with

- (i) climate change, its causes, risks and implications for development co-operation, in particular in the East and Southern Africa Region, and
- (ii) how to mainstream climate change and disaster risk into their projects and programs.

Organisation of Workshop

Workshop Programme

| | | |
|------------------|---|---|
| Monday | Climate Change & DRR context | Adaptation to CC and CCA & DRR Mainstreaming |
| Tuesday | CCA & DRR Mainstreaming | Practical application of CEDRIG |
| Wednesday | Field visit Kilimo Salama Project | |
| Thursday | Different approaches to Micro-Insurance | Identification of adaptation options Monitoring and Evaluation |
| Friday | Identification of key challenges and actions Closing | Safari to Nairobi National Park |
