

Curriculum Vitae MARKUS ENGLER (KEK)

Specific Competences and Qualifications for the Backstopping Mandate VSD

Markus Engler has longstanding experience in organizational development, strategic planning and methods of monitoring and evaluation. He has supported various VET projects, namely the Council for Technical Education and Vocational Training, a VET-center and an 'Employment Programme' in Nepal as well as VET programmes in Albania. More recently he is fully engaged in developing schemes for the Results-oriented/-based Management of programmes and projects for various Government and Non-Government Organizations in the international cooperation. He supports global programmes of SDC with conceptual advice on network-issues and on monitoring of global programmes. Based on these experiences Markus Engler can provide methodical services (network/cooperation management, RBM, M&E) with a sound thematic background in issues of VET.
