Company / training location

2.

Inter-company courses

3.

Vocational school

4.

Skills Expert Cross-occupational training

Occupation-specific training

Types of training

Our trainees are given responsibility at an early stage.

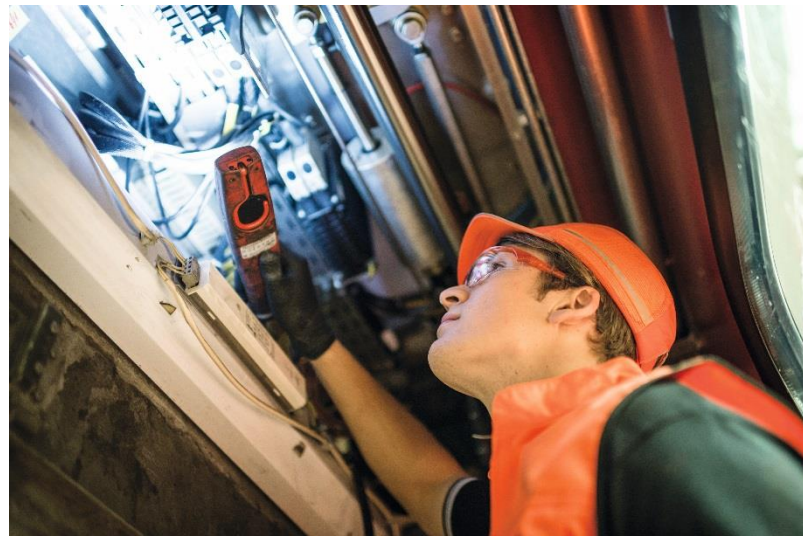

Junior station

At a partner company

Junior business team

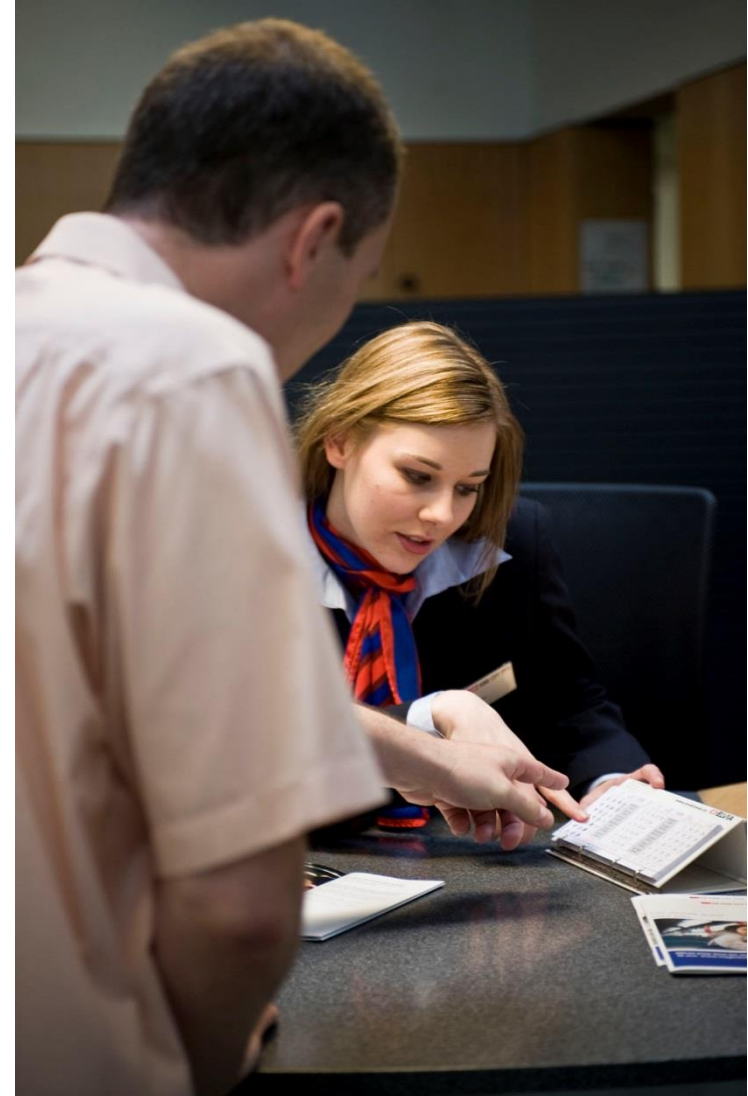

At a partner company
At login

Our training philosophy: junior stations

- **Autonomous management of a railway station by apprentices**
 - Resource planning
 - Advice and sales
 - International luggage shipment
 - Accounting
 - Projects
 - Sales promotion
 - Market development
 - Career information for schools
- **Knowledge sharing amongst apprentices**
- **Coaching by qualified apprenticeship trainers**

Basic training in the junior business team

Our basic training courses for each occupational area are held in login's own apprentice workshops during the first and/or second apprenticeship year;

- IT
- Engineering
- Track construction

Trainees gain the necessary basic training in the junior business team before progressing to more specialist skills at our partner companies.

This is where we work - Overview
