

r4d (Research for Development) Programme Conference

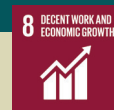

Job Creation and Conditions for a Social and Environmental Impact

Discussion of Results from Current Research on Labour Markets

October 28th, 2021, 2:30–6 pm CEST/GMT+2

Hybrid conference: University of Lausanne, Switzerland (UNIL, [Amphimax](#)) and online

Goal: Explore the findings of r4d research in Bangladesh, Bolivia, Ghana and Switzerland on job creation and employment conditions, and examine their impact for future projects within the International Cooperation community.

PROGRAMME

Opening Speakers

- **Santosh Mehrotra**, Visiting Professor, Centre for Development Studies, University of Bath, UK
- **Caroline Revaz**, Swiss Politician, Member of the Green Liberal Party, Scientific Advisor at the Federal Department of Foreign Affairs (FDFA)

RESEARCH RESULTS

The results are presented in panel discussions by researchers involved in recent studies carried out in Bangladesh, Bolivia, Ghana and other partner countries of the r4d programme. The panels are enlivened by short films on research findings and interactive breakout sessions, enabling active participant engagement.
