

Citizen engagement through Visual Participatory Processes

Capitalization of ten years support to
Decentralisation and Local
Governance in Bosnia & Herzegovina

PROCESS PIPELINE

Objectives

- Create space for reflection and dialogue that facilitates stakeholders learning about their own citizenship
- Give participants control over how to shape, articulate and use material about their experiences of citizen participation (Technology put in the hands of the participants)
- Illustrate strongest and most important lessons learnt about citizen participation in SDC programme
- Identify under what circumstances citizen participation leads to deepened democracy, reconciliation and women's empowerment
- Contribute to SDC planning at country level and DLGN level

outputs

- A collection of digital stories from chosen stakeholder groups
- A participatory video, which synthesizes issues, raised through digital stories
- Documentation of the process, including photo and video
- Edited film incorporating all of the above
