

Results IGE Survey

Economy Network

22 February 2024

In January 2024, the SDC conducted a survey to better understand the needs and interests of the members of the Economy network on the topic of Inclusive Green Economy (IGE). The outcomes of the survey determine what type of consultation will be organised in 2024: including the selection of IGE topics and consultation formats.

This paper presents the summary results of the survey. Conclusions and information about next steps will be communicated separately.
